

# CAPABILITIES STATEMENT

*Delivering trusted insights fast. Powered by Aloha Spirit & Grit.*

## WHAT WE DO & WHY WE'RE UNIQUE

### **Minimally Invasive Integration**

We work with your existing systems, no rip-and-replace. Our platform- and model-agnostic approach means seamless integration across cloud, on-premises, hybrid, and edge environments. You own your data. We are the easy button that makes it actionable.

### **Mission-Speed Insights with User Control**

We automate 80% of the data processing work, taking data-intensive processing from extraction to analysis. Transform decision timelines from weeks to minutes through explainable AI you can trust. You choose the models. You choose the platform. We make them work together.

### **Deployment Flexibility**

From modern CPUs with <5 GB RAM to large GPU clusters, our microservices architecture scales to your mission requirements. You can use our platform as a standalone tool or integrate it within your existing technology stack.

*Ride the Wave of Data. Don't get crushed by it.*

## INDUSTRY-LEADING TECHNOLOGY SOLUTIONS

### KANA WAVE

Data Processing and Automation Tools

### KANA [BLANK]

- Platform for YOUR data and decision-making needs

### KANA WAVE

- Data Processing: Extraction, Tagging, Summarization, Structured & Unstructured
- Cloud-Agnostic Deployment
- Active Web Intelligence
- User-Defined Reasoning Engine
- Tailored Machine Learning
- Custom API Endpoints

### KANA HUKILAU

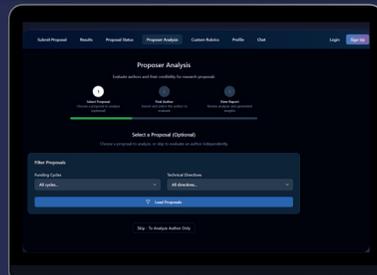

- Proposal Evaluation Platform
- Bad Actor Analysis
- Accelerated Decisioning

### KANA CURRENT

- Automated Article Evaluation & Scoring Platform
- Automated Data Governance
- Sentiment Analysis

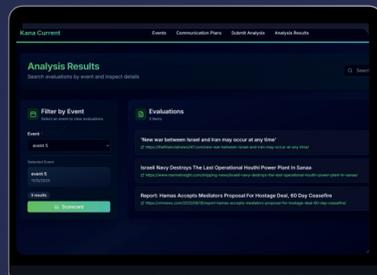

### KANA HUKILAU

Mission-Speed Evaluation for Mission-Critical Technologies

### KANA CURRENT

Platform for Information Public Affairs

### Kana Systems - Success Story

**"We have a huge data challenge.** That's where **Kana Systems** comes into play.

Their system helps provide that detailed level of understanding of all the data as we collect it in a way that can **actually help answer** that question **'Can We Fight Tonight?'**

But to actually measure it, and to know it in something close to real time, has frankly never been doable without this - Kana's kind of data analytics."

**Rear Adm. Fritzemeier**  
NUCLEAR COMMAND, CONTROL & COMMUNICATIONS ENTERPRISE CENTER
